

VIRGINIA FINDS COLUMBIAN EASY

Defeated Washington Team in Slow, Uninteresting Game.

SCORE WAS SEVEN TO FIVE

Only Six Innings Were Played—Virginia Leaves To-Morrow On A Southern Tour and Will Play Carolina Twice.

(Special Dispatch to The Times.)
UNIVERSITY OF VA. VA., April 15.—The Columbian University baseball team, from Washington, D. C., was defeated by Virginia, 7 to 5, in a slow, uninteresting game of six innings. The game was called at the close of the sixth inning to allow the Columbian team to take the afternoon train for Washington.

Both teams put little life and interest in the game, due probably to the one-sided score until the close of the fifth inning. Virginia led the scoring from the beginning with Columbia's out-out with the exception of one run, until Cracraft, Virginia's young pitcher, gave two more runs on balls and allowed the Washington team several hits, which resulted in four runs.

Shelton was in the box for Columbian, and he kept the seven hits scored by Virginia well scattered. With throwing by Columbian proved costly and gave Virginia several of her early runs.

The Virginia team will leave Thursday on a Southern trip, which will include one game with Washington and Lee University and two with the University of North Carolina.

Scrofula

It is commonly inherited.

Few are entirely free from it.

Pale, weak, puny children are afflicted with it in nine cases out of ten, and many adults suffer from it.

Common indications are buncches in the neck, abscesses, cutaneous eruptions, inflamed eyelids, sore ears, rickets, catarrh, wasting, and general debility.

Hood's Sarsaparilla and Pills

Eradicate it, positively and absolutely.

This statement is based on the thousands of permanent cures these medicines have wrought.

"My daughter had scrofula, with eleven sores on her neck and about her ears. Hood's Sarsaparilla was highly recommended and she took it and was cured. She is now in good health." Mrs. J. H. Jones, Parker, Cal., Ind.

FORCE BILL OF DRASTIC KIND

This Would Be the Effect of the Depew Amendment.

A SHREWD POLITICAL TRICK

Purpose is to Defeat the Proposed Change in Method of Electing Senators and to Attribute it to Minority Party.

(Special Dispatch to The Times.)
WASHINGTON, D. C., April 15.—The Depew amendment to the resolution providing for the election of United States Senators by the direct vote of the people, which was adopted by the majority of members of the Senate Committee on Privileges and Elections to-day, is, in the opinion of many of the Democratic Senators, as drastic a force bill as was ever sought to be enacted, and will result in arraying against the resolution every Democrat who but for this provision would have voted for it.

It places all congressional elections in the hands of the Federal Government, which is empowered not only to inquire into the conduct of such elections and certifications of the results, but is also clothed with the authority to provide for the registration of citizens allowed to vote.

HAVE A PURPOSE.
The amendment was not put in by the Republicans without a purpose. It was sought to make the resolution so distasteful to the South, which is generally in favor of the proposition, that Senators elected by direct vote of the people, that its representatives could not consistently vote for its adoption.

To delegate to the Federal Government the authority to supervise, not only the management of congressional elections, but also the registration of voters, is to part with a right the States have always strenuously contended for.

It is plainly evident that the Republicans do not want a change in the existing methods of electing Senators, though they know that popular sentiment is in favor of the movement, and they are playing with the people, seeking to charge the defeat of the resolution, if Democratic opposition should bring it about, to the minority party in Congress.

It is a Republican trick, however, that will hardly succeed in fooling anybody.

WILD RUMORS.

The wildest rumors and reports were circulated to account for the record-breaking activity of Southern Railway common. Veteran brokers failed to understand why Morgan interests should want to increase their holdings of this stock.

Later, when it was seen that the Gates crowd and speculators generally were buying in Southern common, the movement partook of a purely speculative character, and although the stock continued phrenziedly active, through-out, heavy profit-taking set in below the high level.

In spite of numerous attempts to rally, the price fell off to 37 3/4, a net gain for the day of 3 3/8. Louisville and Nashville advanced at the opening, but fell off almost as soon as the "bulls" began to move. The day's trading in Louisville and Nashville aggregated about 55,000 shares, the stock closing at 127, a net loss for the day of one cent.

Fully two score brokers were active in the buying and selling of Southern Railway common. Prominent among these were Albert J. Taylor and Company, Van Emburges and Atterbury, A. A. Houseman and Company, Frank Savine and J. S. Baehre and Bouvier. About half the room traders and "fres" having a hand in the game at one time or other.
